

Elders Advisory Committee

The agency have an Elder Advisory Committee that consists of an Elder from each respective First Nation. The committee advised and sits with the board of directors to offer support and input in the programming of the agency.

We have two Elders from the urban centres, namely Prince Albert and Saskatoon that were named to assist the agency with our off reserve initiatives, etc. A gathering of the Elders usually takes place when new initiatives are being introduced into the programs. The Elders offer support and prayers so that these initiatives have the blessings from the Elders. Elders that attend these events consists of the off reserve population as well.
